

Made for cities, built for people

COMFORT THAT MAKES A DIFFERENCE

- Space for 15 passengers - ideal for shared urban mobility
- Foldable seats & luggage space - flexible room for every use
- High-end interior with infotainment & two-way communication - arrive informed, travel relaxed

SUSTAINABILITY WITHOUT COMPROMISE

- Emission free - clean, quiet & future ready
- Durable materials, low maintenance & long-lasting
- Car-wash validated, built to stay spotless & reliable

ACCESS THAT EMPOWERS EVERYONE

- Inclusive by design: automatic ramp, wheelchair space & tactile controls providing seamless travel for all

Shaping the future of mobility

THE HOLON urban

Built for line-operations & ride-pooling. Our autonomous shuttle blends advanced technology with comfort, safety, and sustainability.

WHY THE HOLON urban?

Smart design. Inclusive features. Real-world functionality. The HOLON urban moves people and cities forward.

Initial Deployment with HOCHBAHN

From mid-2025, HOCHBAHN integrates the HOLON urban into Hamburg's mobility network via Project ALIKE.
